-

Projects

Interior Design

[Live link](#)

[Github link](#)

- Built a full stack web app that allows users to book a service and pay with a credit card.
- New services can be added to the home page from the admin page.
- The service recipient can give a review which will show on the home page.

City Rider

- Users may build an account using their email address or a Google account, and then choose any mode of transportation.
- It all comes down to firebase authentication and react router. A website can be easily created and accessed by the user.
- Used: JavaScript, React, React router, HTML/CSS, Bootstrap

Bus ticket

[Live link](#)

[Github link](#)

- There is a form for booking bus tickets
- The ticket has two coils

- Fill in the form correctly and click on the Booking Now button will show that you have succeeded
-
